Cindy Broadus RN, BSHA, CHCRM, CLNC, LNHA, WCC, OMS, DWC, AWCC

Executive Director - National Alliance of Wound Care and Ostomy

October 6, 2023

1:00 pm - 5:40 pm

You won't want to miss "ALL THINGS WOUND CARE" a 4.25 hour workshop, that provides an immersive learning experience for wound care practitioners. Whether a novice or an expert, this workshop is for you.

Simulation Lab - The simulation lab delivers unmatched performance for standardized patient and wound model training bringing full simulation efforts together in a single simplified view that saves time, improves clinical outcomes, and drives tangible results.

This session will provide individual simulated wound care patient scenarios and collaborative, team-based healthcare delivery scenarios to improve learners' wound care skills and clinical decision making abilities. Participants will experience the various life-size models as we assess, identify wounds, and demonstrate various wound care procedures to include: arterial assessment utilizing actual arterial doppler sound modules, compression therapy, crusting, and wound measuring.

Wound Care Escape Room - Participants will experience the first of its kind Wound Care Escape Room. This escape room is all about assessment. Participants will hone their skills, while working through the clues that will lead to completing an assessment, developing a plan of care, choosing the most appropriate dressing, and "escaping" the room all before time runs out. You'll be actively engaged from the time you enter the room until the time that you "escape". Seating is limited for this workshop. Register now to ensure your place in this one of a kind session.

Workshop Fee - \$300.00 per Person

Receive 4.25 Contact Hours

### Saturday, October 7, 2023

7:45am - 8:15am

**Breakfast Symposium: Mild to Moderate Atopic Dermatitis and the JAK-STAT Pathway**

Sponsored by Incyte

Coffee, tea and snacks will be served

---
